*Reading: Izabella's Bad Day

One year ago, I broke my hand. I was going to my dentist when I fell. When I got to the dental office I called my son and told him this bad news. He took me to the emergency room of the Jefferson Hospital. He helped me fill out the forms and waited with me and my husband for one hour. Then he went back to his job. I was with my husband and stayed there to wait for a doctor. I felt nervous about my English. We waited for the doctor for a very long time. At last the nurse called me to a big room. There were many patients. He measured my blood pressure and gave me two tablets of Tylenol, and asked me something. Two or three hours passed when the doctor examined my hand and took an x-ray. My hand was swollen and I could not move it. I wanted to tell the doctor about that, but I could not explain in English. He asked me something but I understood only some words. After they examined my hand they put on the cast and when it dried I was let out.
